RE: EPA/DEC Joint Request for Information

Dear Ms. Hile:

This correspondence responds to National Plating's (NP's) reply to the joint request for information from EPA and the Department received by NP on March 3, 1995. After review, the Department has identified several data gaps in NP's reply, as set out in the questions below. Pursuant to the underlying State and Federal authority set forth in the March 3, 1995 joint request, please submit the requested information within 30 days of your receipt of this correspondence.

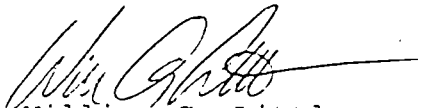

1. NP's response to question 4 of the joint request indicates dates of operation from 1987-present, yet attachment E contains Onondaga County Industrial Wastewater Discharge Permits (OCIWDP) dating back to 1976. Please clarify this discrepancy and provide further information concerning NP's historic operations, consistent with the request in question 4. In addition, please provide facility location and site maps.
2. In response to question 6 of the joint request, NP provided a list of its processes. At this time, please provide a general description of each individual process and provide information regarding the types and quantities of wastes generated.
3. Attachment C (Waste Manifests) to NP's response includes significantly more transporters than appear in NP's response to question 8 of the joint request. Please provide a complete list of waste transporters presently (or previously) being used by NP.

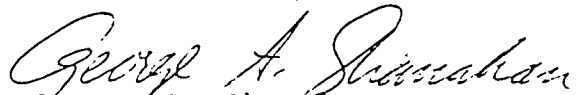

4. Pursuant to question 9, please provide copies of the Self Monitoring Reports required by NP's OCIWDP. In addition, please provide further details concerning the "alleged batch discharge" referenced in Appendix F.

5. Pursuant to question 10 of the joint request, please provide additional information concerning industrial wastewater pretreatment (method/flow diagram, type, capacity and date of installation) and discharge to the Onondaga County Metropolitan Wastewater Treatment Facility.

We hope that EPA's and the Department's receipt of this supplemental information will complete your company's response. We will continue to review your company's submittal and therefore must reserve our rights to ask for further supplemental information at a later date if it becomes necessary. Please contact Mr. Little at the above telephone number if you have any questions.

Sincerely Yours,

William G. Little
